SUMMARY

A highly motivated and detail-oriented Computer Applications graduate with a strong foundation in DevOps practices, cloud computing, and automation tools. I have also hands on experience in Oracle sql and database management. Recently completed a Bachelor's degree in Computer Applications with hands-on experience in Linux, Git, GitHub. Skilled in scripting, version control, continuous integration and deployment (CI/CD). Eager to apply technical skills and learn new tools to enhance the development and operational efficiency in a dynamic DevOps environment.

EDUCATION

Rajiv Gandhi Memorial college Jogindernagar
Bachelor's Degree in Computer Applications
2021 – 2024

Govt. Sen. Sec. School Chauntra
12th standard

SKILLS

- Linux, Shell Scripting
- Git, GitHub
- Python ,oops
- Oracle SQL
- Aws Services
- Cloud   Computing
- Jenkins
- Docker
-

CERTIFICATIONS

- Tcs - YEP
- Diploma in Multilingual Computer Applications
- English Employability Entrepreneurship

PROJECTS

Bus Pass Management System

A Bus Pass Management System is a software application or platform designed to automate and manage the process of issuing, renewing, and monitoring bus passes for passengers.
It streamlines the operations for transport authorities or bus operators and provides convenience to passengers by replacing manual processes with digital solutions. Passengers can register and create accounts.
Technology used- HTML,CSS,JavaScript,Mysql

Online Meeting App

An Online Meeting App is a software application that enables individuals or groups to connect, communicate, and collaborate virtually over the internet. These apps are widely used for business meetings, online classes, webinars, and personal communication. They provide a platform for real-time audio, video, and text-based interactions, often supplemented by collaboration tools
